FOREWORD

The 1943 edition of the National Guard Register is published primarily as a reference and guide for finance officers and personnel officers in the field. It has been amplified to include the names of all National Guard officers, both Federally recognized and those serving under National Guard of the United States appointments. In form and arrangement it embodies a radical departure from previous registers and much historical and descriptive information formerly published is omitted. Since it includes the name of every National Guard officer inducted into active military service during the present emergency, it is believed this edition of the register not only will fulfill an essential need at this time but will provide a valuable historical record in years to come.

JOHN F. WILLIAMS
Major General,
Chief, National Guard Bureau.

1. PUBLICATION. This issue of the Official National Guard Register, which is the basis for computing longevity, contains the names of officers and warrant officers of the National Guard and National Guard of the United States. All information published is current to and including March 1, 1943, and shows each officer's status as of that date.

2. ARRANGEMENT. The register is arranged in alphabetical order in two sections. The first section contains the names of those federally recognized officers of the National Guard and officers of the National Guard of the United States who were inducted into federal service on or after September 16, 1940 and whose National Guard status was still in effect as of March 1, 1943. The second section contains the names of those officers of the National Guard and the National Guard of the United States who were inducted into federal service on or after September 16, 1940, who have been casualties and those whose federal recognition or appointment in the National Guard of the United States was subsequently terminated prior to March 1, 1943. Exceptions will be designated by symbols with explanatory footnotes.

3. DATA. The State in which each officer is federally recognized, or from which inducted, is shown immediately following his name and serial number together with certain other data including the State and date of his birth, service awards, college or university degrees, graduation from general and special service schools, aeronautical ratings, and the current appointment in the National Guard of the United States. The record of military service of each officer and warrant officer is shown opposite his name in three blocks, i.e., active National Guard; National Guard Reserve and Inactive National Guard (if any); and Federal service.

4. SERVICE. The record of military service includes enlisted and commissioned service in the Organized Militia and/or National Guard, and in the authorized Federal forces. Prior to July 1, 1916, officers are credited with State service while serving under an enlistment and/or an appointment by the State; subsequent thereto credit for commissioned service is given only when in a federally recognized status. State enlisted service on and after July 1, 1916, is credited only when assigned to a federally recognized National Guard unit. OTC or SATC service is shown except where such service overlaps enlisted or commissioned service. Service under foreign governments is not shown. Service performed in a State other than the one in which the officer is now federally recognized or from which he was inducted is indicated by showing the name of such state before each period of such service. No reference is made to organizations in which an individual served or to the manner of separation from the service. The word "to" indicates termination of a period of service and all dates shown are inclusive.

5. FORM OF RECORD OF SERVICE. Enlisted service is shown in italics and commissioned service in roman type. Five-year appointments in the National Guard of the United States and periods of reserve service are inclosed with parentheses. All service is shown in chronological order. First block: Includes all service in the active National Guard and service in reserve components of the Army, Navy, Marine Corps, Coast Guard, Public Health Service, and Coast and Geodetic Survey. Periods of active duty in reserve components, except world war service, are not shown. All five-year appointments in the National Guard of the United States are shown in this block. Second block: Includes all service in the National Guard Reserve and Inactive National Guard. Periods of active duty in the National Guard Reserve are not shown. Periods of active duty in the Inactive National Guard are shown. The symbol (NGUS) appearing in a period of service in the Inactive National Guard indicates that the officer held a concurrent appointment in the National Guard of the United States during that period. Third block: Includes all service in the Army, Navy, Marine Corps, Coast Guard, Public Health Service, Coast and Geodetic Survey, and National Guard when in Federal service. Service performed in components other than the Army is indicated by appropriate abbreviations.

6. COMPUTATION OF LONGEVITY. The Comptroller General has ruled that service in the Inactive National Guard may not be counted for longevity, but that service under a commission in the National Guard of the United States, held concurrently with a commission in the Inactive National Guard, may be counted (C.G. Dec. B-32556, March 17, 1943). Inactive service in any military component overlapping service in the National Guard is shown, but credit for double time for such service is not authorized by law.

7. PROMOTIONS. Promotions under Public Law 455 are indicated by the symbol (PL455). All promotions in the Army of the United States as of record in the National Guard Bureau on March 1, 1943, are shown. Prior to December 7, 1941, the date of acceptance of such promotions is shown. On and after December 7, 1941, the date shown is the date of the order announcing the promotion.

8. CORRECTIONS. Errors and omissions should be reported by individual officers to the Chief of the National Guard Bureau, through prescribed military channels.

9. ABBREVIATIONS. The use of abbreviations is restricted to those published in Army Regulations. As a means of ready reference the following are given:
